about our... **Metal SDS Button Head Post Torx**

Self drilling tip to screw into aluminium and light gauge steel, used for security applications.

**NEW
PRODUCT**

METAL SDS BUTTON HEAD POST TORX 410 STAINLESS

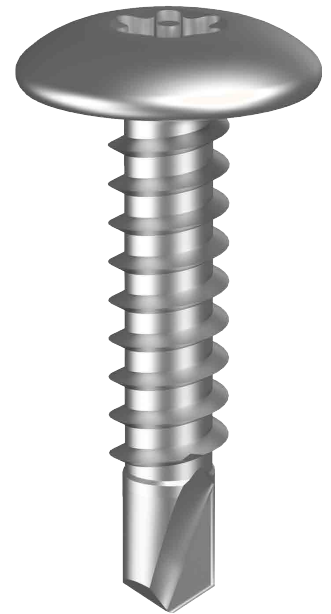

Part	Torx Bit Size	Size (mm)	TPI	Length (mm)	Pack Qty
I41MSBT1016025	T25	10	16	25	1000

Please note: not suitable for coastal use.

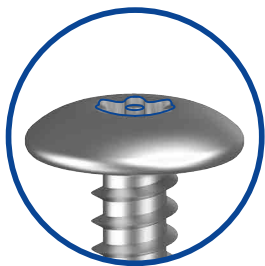

410 Stainless Properties

- Grade 410 is a harder material for more effective self drilling and tapping.
- Grade 410 stainless has less corrosion resistance than 304 or 316 stainless and is therefore not recommended for coastal and marine applications.

Torx Drive Types

are also known as star drive fasteners, enable easier re-installation. They have a six-point star recess in the head that increases torque exertion and prevents the drive bit from slipping out of the head of the screw, also known as cam out.
